

Hal Lindsey

Hal Lindsey died on November 26 of this year at the age of 95. Born and raised in Houston, the former tugboat captain in New Orleans became a believer at age 25 by reading a Gideon Bible he had received his senior year of high school. While attending Berachah Church in Houston he was encouraged to attend Dallas Seminary where he received a ThM and after graduation joined Campus Crusade for Christ and served at UCLA. His Bible prophecy book *The Late Great Planet Earth* was published in 1970, and it became the number one selling book during the '70s. Millions came to Christ through his many bestselling books over the years. Hal later developed very popular radio and television programs and pastored a church in Southern California. Hal spoke at our 2nd Pre-Trib Study Group conference and after his presentation people began asking him about current events and

how they relate to Bible prophecy. This is why we have on Tuesday evenings our session on current events every year at this conference. Hal is considered the greatest influence for Bible prophecy and pretribulationism in our lifetime.
